Steve Sadowsky  
Historic Preservation Officer  
City of Austin

Dear Steve,

Following up on our application to install Jim Hodges's "With Liberty and Justice for All", 2014, at 700 Congress Avenue, I wanted to review the scope of the artwork.

Each letter of the sculpture is fabricated from 316 stainless steel polished to a mirror finish at a height of 7 feet. The work will be installed to an armature that is attached to the structural steel of the building via the parapet, engineer's drawings will be submitted at permitting. The face of each letter of the sculpture is cut from dichroic plastic. At night, the sculpture will be illuminated internally with programmable LED tape.

The sculpture will be installed from October 2016 and de-installed on September 30, 2019. The length of the installation of the artwork is initiated by the cost to install the work.

To review, the artist, Jim Hodges, is an internationally recognized artist with exhibitions at major museums around the world. His work is collected in important public and private collections globally.

Please let me know if I can answer any additional questions.

Many thanks.  
Mike Henry
